Hey Joel,

I just called and got your voicemail. I've been working a lot from home lately... I don't think calls from my office number are being forwarded to my cell phone. When you get a moment, give me a call at Ex. 6 Personal Privacy (PP)

Hi Kia,

I haven't been able to reach you over the phone so hopefully an email will be more successful. MDE would like to get feedback on our exceptional events demonstration for the Fort McMurray fire and smoke plume on May 25 and 26, 2016 before officially submitting it. I'd like to touch base with you first before sending the full May demonstration. Please contact me at your earliest convenience by either phone (410-537-3296) or email.

MDE's July event demonstration package is still under development but will be completed as soon as possible.

Joel

Hi All,

I just wanted to check in regarding the status of your EE demos. We recently had a call with R1,R2 and OAQPS to discuss Massachusetts' and Connecticut's draft packages. Attached you'll find CT's draft and EPA's response. Although CT made significant changes after receiving the comments... I think it's still helpful to see what they submitted. They are finalizing their EE and plan to put it out for public comment soon. I will send you a link once it becomes available.

If you have draft packages in-house I encourage you to submit them for feedback before you put out a final version for public comment. Both CT and MA gave permission to share their drafts. I tried to attach MA's draft but it was too big ☹ I'll try to send it separately or get a link.

If you have any questions email or call me.

Subject: FYI: R1 Response Letter for Draft CT Exceptional Events Demo

Hi Kia,

As I mentioned in my voicemail, attached are comments we sent to Connecticut on their draft EE demo for Ft. McMurray. Let me know if you want to share outside of EPA and I'll double check with CT.
